## Summary

Associate Software Engineer skilled in backend (Python, Java) and full-stack development using React, Next.js, and TypeScript. Experienced in building production-critical, scalable applications with strong focus on system performance, data integrity, and problem-solving. Eager to collaborate with domain experts to deliver impactful solutions in healthcare technology.

## Technical Skills

**Languages:** Java, Python, JavaScript, TypeScript, Rust (Basics), C++, SQL, Dart  
**Backend:** Django, FastAPI, Node.js, Express.js, RESTful APIs, WebSockets  
**Frontend:** React.js, Next.js, Vite.js, Tailwind CSS, HTML5, CSS3, Bootstrap  
**Databases:** PostgreSQL, MySQL, SQLite, MongoDB, Prisma ORM, Firestore (NoSQL)  
**Tools & DevOps:** Docker, Git, GitHub Actions, AWS, Postman, Linux, Nix, Terraform

## Experience

### Full Stack Developer Intern

Dec 2024 – Mar 2025

Lorvantiq Ventures Pvt. Ltd. (RKL Worlds)

Remote

- Owned full-stack development of the **RKL Worlds** e-commerce platform using **React**, **Node.js**, and **MySQL**.
- Implemented an **API-First** architecture to integrate **Stripe** payments and **Shippo** logistics, streamlining checkout workflows.
- Built and maintained responsive user interfaces using React and TypeScript, improving user interaction and reducing page latency.
- Established **CI/CD pipelines** using **GitHub Actions** to automate testing and deployment, ensuring code quality.
- Collaborated in an **Agile** team to scope requirements, optimize database queries, and deliver scalable product features.

## Projects

### AI-Powered Resume Screener API | LINK

Nov 2025 - Present

- Developed a **production-ready backend microservice** using FastAPI for automated resume screening with high performance and scalability.
- Integrated **Generative AI** (Gemini) to evaluate applicant data and produce structured insights, demonstrating strong **analytical problem-solving**.
- Implemented **PostgreSQL + SQLAlchemy** for efficient **query optimization** and large-scale data retrieval.
- Ensured **data integrity and validation** with Pydantic and deployed consistently using **Docker containers**.
- Tech Stack:** Python, FastAPI, PostgreSQL, Docker, Gemini API, Pydantic

### NexusQuiz: Competitive Exam System | LINK

Nov 2025 - Nov 2025

- Developed a **full-stack platform** using Django for competitive exams with **real-time timers and dynamic scoring**.
- Built a secure **Admin Dashboard** to manage question banks and analyze user performance, ensuring **data accuracy and integrity**.
- Implemented **role-based authentication** and a responsive **Bootstrap UI** to deliver a seamless user experience.
- Adopted **Nix for reproducible development environments**, showcasing adaptability to new tooling and workflows.
- Tech Stack:** Python, Django, SQLite, Bootstrap, Nix, HTML/CSS

## Certificates

### Cloud Computing (NPTEL) | CERTIFICATE

Jan 2025 - Apr 2025

Covered cloud models (IaaS, PaaS, SaaS), virtualization, and scalable cloud architecture.

### Application Development in Java (LPU) | CERTIFICATE

Jun 2024 - Jul 2024

Learned OOP concepts and built Java GUI apps with Swing and multithreading.

### Ultimate Flutter Course (Udemy) | CERTIFICATE

Mar 2024 - May 2024

Built cross-platform **Flutter** apps with Bloc/Provider and integrated **Firebase** backend.

## Education

### Lovely Professional University

Jul 2023 - Present

Bachelor of Technology in Computer Science and Engineering - GPA: 7.1

Jalandhar, Punjab

### Zeal Polytechnic, Pune

Jul 2020 - May 2023

Diploma in Computer Engineering - GPA: 8.7

Pune, Maharashtra

### New English School, Mandki

Jun 2019 - May 2020

Secondary School Certificate (SSC) - GPA: 8.7

Pune, Maharashtra
